PROJECT CONTEXT & OVERVIEW This proposal outlines the complete content creation package for a 5-day event coverage. All video content will be captured using an iPhone 16 Pro , supported by professional stabilization equipment and advanced editing tools to ensure cinematic quality and visual consistency. SCOPE OF WORK The project includes both on-site content creation and real-time social media management throughout the event. Our team will document key moments, team activities, décor highlights, performances, and guest interactions. DELIVERABLES • 4 Instagram Reels — high-quality, dynamic edits optimized for engagement and storytelling. • 1 YouTube Video — a 20–30 minute cinematic recap showcasing the essence and energy of the event. • Instagram Story Management — live posting and updates on the client's official account during the event to maintain audience engagement. PRODUCTION SCHEDULE • Event Coverage: 5 consecutive days. • Daily filming will capture all major moments, with content produced and curated for both short-form and long-form platforms.	20%	9 000,00	1	9 000,00
